

WHS&E Policy

Cinqplast Plastop is committed to the health and safety of its employees, contractors and visitors and to the elimination of work related illness and injury.

This will be achieved by:

- Provision and maintenance of a safe working environment.
- Training of all employees in safe work practices.
- Involvement of all employees in the development of health and safety procedures.
- Education of all employees on their individual obligations and their responsibility for observing safe work practices and individual site rules.
- Continuous review of procedures and communication of results to improve performance.

Managing Director
